

## Registration cancellation insurance

Cancellation insurance is a guarantee of reimbursement of the amount paid to date (except for a handling cost of 30 € per participant), if an unforeseeable cause independent of your will forces you to cancel your trip or prevent you from participating in the career.

The risks covered by the cancellation insurance are as follows:

- Accident, death, illness (including relapse or aggravation) of the insured, a member of his/her family or one of the persons accompanying him/her.
- An incident occurred in the main residence, secondary residence, place of work of the insured or his/her vehicle.
- A complication of pregnancy or pregnancy unknown at the time of registration.
- A professional impediment: transfer, dismissal, modification or cancellation of the holiday by the employer, etc.
- Obtain a new paid job or internship contract.
- An administrative convocation.
- Theft of identity documents.
- Cancellation of the trip by the transport company.
- The inability to practice running or mountain biking for health reasons.

In any case, the cancellation insurance does not cover the following circumstances:

- Change of opinion.
- Any circumstances of the participant's responsibility, such as the loss of a flight, ferry, bus or similar.
- Do not dispose of the essential material at the time of start, being late at the start or other similar circumstance.

### Subscription conditions:

The price of the insurance is 10 € per person. It must be contracted at the time of the registration, adding the extra service and by payment of the corresponding amount.

Insurance is nominal and non-transferable between participants or members of the same team. It is not necessary that the two team members contract the insurance, although only those who have contract it can benefit from it in case of cancellation.

The coverage takes effect at the time of insurance contracting and ceases at the end of the bib number delivery, on the day before the start of the race.
